March 2022

India's External Debt as at end-December 2022

The stock of external debt as at end-December 2022 along with the revised data for earlier quarters is set out in **Statement I (IMF format¹)** and **Statement II (old format)**. The major developments relating to India's external debt as at end-December 2022 are presented below.

Highlights

1. At end-December 2022, India's external debt was placed at US\$ 613.1 billion, recording an increase of US\$ 7.3 billion over its level at end-September 2022 (**Table 1**).
2. The external debt to GDP ratio stood at 19.1 per cent as at end-December 2022 at the same level as at end-September 2022 (**Table 1**).
3. Valuation loss due to the depreciation of the US dollar *vis-à-vis* some major currencies such as Yen, Euro and UK Pound was placed at US\$ 3.8 billion. Excluding the valuation effect, the increase in external debt would have been US\$ 3.6 billion instead of US\$ 7.3 billion at end-December 2022 over end-September 2022.
4. At end-December 2022, long-term debt (with an original maturity of above one year) was placed at US\$ 483.9 billion, recording an increase of US\$ 5.1 billion over its level at end-September 2022 (**Table 1**).
5. The share of short-term debt (with original maturity of up to one year) in total external debt increased marginally to 21.1 per cent at end-December 2022 from 21.0 per cent at end-September 2022; the ratio of short-term debt (original maturity) to foreign exchange reserves decreased to 23.0 per cent at end-December 2022 (23.8 per cent at end-September 2022) (**Table 5**).
6. Short-term debt on residual maturity basis (*i.e.*, debt obligations that include long-term debt by original maturity falling due over the next twelve months and short-term debt by original maturity) constituted 44.5 per cent of total external debt as at end-December 2022 (45.0 per cent at end-September 2022) and stood at 48.5 per cent of foreign exchange reserves (51.6 per cent at end-September 2022) (**Table 2**).
7. US dollar denominated debt remained the largest component of India's external debt, with a share of 55.0 per cent at end-December 2022, followed by the Indian rupee (29.7 per cent), SDR² (6.2 per cent), Yen (5.5 per cent), and the Euro (3.0 per cent).
8. The outstanding external debt of general government as well as non-government sector increased by 3.7 per cent and 0.6 per cent respectively as at end-December 2022 over the previous quarter (**Table 3**).

¹ The concepts set out in the IMF's 2013 *External Debt Statistics (EDS) Guide* are harmonized with those of the *System of National Accounts (SNA) 2008* and the sixth edition of the IMF's *Balance of Payments and International Investment Position Manual (BPM6)* published in 2009.

² SDR: Special Drawing Rights

9. The share of outstanding debt of non-financial corporations in total external debt was 41.1 per cent, followed by deposit-taking corporations (except the central bank) (25.1 per cent), general government (21.0 per cent) and other financial corporations (8.1 per cent) **(Table 3)**.
10. Loans were the largest component of external debt, with a share of 31.8 per cent, followed by currency and deposits (22.2 per cent), trade credit and advances (20.6 per cent) and debt securities (17.2 per cent) **(Table 4)**.
11. Debt service (principal repayments plus interest payments) was at 5.3 per cent of current receipts as at end-December 2022 against 5.0 per cent as at end-September 2022 **(Table 5)**.
